**2012 Kuskokwim Bay Salmon Fishery News Release 4
Districts 4 and 5 to Open to Commercial Salmon Fishing**

This is an announcement from the Alaska Department of Fish and Game at Bethel for commercial salmon fishermen in the Kuskokwim Area.

District 4, Quinhagak

District 4, Quinhagak, will open to commercial salmon fishing for 12 hours from 9:00 a.m. until 9:00 p.m. on Wednesday, July 11, 2012 and for 12 hours from 9:00 a.m. until 9:00 p.m. on Friday, July 13, 2012.

Preliminary harvest reports from the July 9 opening indicate a harvest of 705 Chinook; 4,505 sockeye; and 8,539 chum salmon from 148 permits. The Chinook salmon harvest was average and the catch rate was below average. Sockeye salmon harvest and catch rate was below average. Chum salmon harvest and catch rate was above average. The local processor anticipates adequate processing capacity for these upcoming commercial periods. Fishermen should maintain contact with the buyer to ensure there is adequate processing capacity for their catch.

In District 4 subsistence salmon fishing will be closed 8 hours before, during, and 4 hours after each commercial fishing period.

District 5, Goodnews Bay

District 5, Goodnews Bay, will open to commercial salmon fishing for 12 hours from 9:00 a.m. until 9:00 p.m. on Wednesday, July 11, 2012; for 12 hours from 9:00 a.m. until 9:00 p.m. on Thursday, July 12, 2012; and for 12 hours from 9:00 a.m. until 9:00 p.m. on Saturday, July 14, 2012.

Preliminary harvest reports from the July 9 opening indicate a harvest of 205 Chinook; 4,836 sockeye; and 2,493 chum salmon from 40 permits. The harvest and harvest rate of Chinook

salmon were average. Harvests and harvest rates of sockeye and chum salmon were above average. The local processor anticipates adequate processing capacity for these upcoming commercial periods. Fishermen should maintain contact with the buyer to ensure there is adequate processing capacity for their catch.

In District 5 subsistence salmon fishing will be closed 8 hours before, during, and 4 hours after each commercial fishing period.

Fishermen are reminded that they may retain any portion of their catch for personal or subsistence use. Fish retained for personal or subsistence use from a commercial fishery must be reported and recorded in the space provided on an ADF&G fish ticket. Fishermen are also reminded that gillnet gear may not be operated in a manner that obstructs more than one half the width of any waterway. In the intertidal zone this restriction applies at all tide stages. Additionally, gear is restricted to 6-inch or smaller mesh size and 50 fathoms in length in a single shackle.

The Department will be closely monitoring commercial fishing periods to assess fishery performance and anticipates announcing additional commercial fishing periods as warranted. Further announcements will be made from the Bethel Fish and Game office, on the state web site (<http://www.adfg.alaska.gov/index.cfm?adfg=cfnews.main>), and local radio stations. News releases will be faxed to area villages and local fish processing companies.

Commercial fishermen are encouraged to consult Fish and Game regulations prior to beginning commercial fishing operations.

For additional information or questions regarding Districts 4 and 5 and Kuskokwim Area fisheries, contact the Alaska Department of Fish and Game office in the Bethel at 543-2433 or toll free at 855-933-2433.
